

New Jersey Engineering Firm Welcomes New Structural Engineer

KSI Professional Engineers, LLC Welcomes Peter Crocitto, EIT to their Team!

Farmingdale, New Jersey...January 2012: KSI Professional Engineers, LLC is starting 2012 off right with a new addition to their team. KSI is proud to welcome Peter Crocitto, EIT to their growing staff of professionals. Mr. Crocitto holds a Master of Engineering degree and a Bachelor of Civil Engineering degree from Rensselaer University. He currently holds an Engineer in Training, EIT certification and will be pursuing Professional Engineer accreditation and LEED certification in the near future.

Peter brings a strong body of knowledge from Rensselaer and his own work experience to our firm. His strong work ethic and professional conduct have proven valuable in building relationships with Architects, Contractors, NJDOT, PANY, PANYJ, and the NJ Turnpike Authority among others. Peter will participate in projects across a wide range of sectors.

Kevin Sommons, Principal of KSI said, "We ended 2011 on a positive note and the last quarter was stronger than expected, 2012 looks very promising. As we continue to grow we will seek capable engineers like Peter to join our firm."

In the past 2 months, the Architecture Billings Index, a leading indicator on the health of architecture, published a score of 52. The number represents a nine to 12 month prediction into non-residential construction spending and foretells an increase in demand for design services. KSI's main client base is Architects who expect fast, reliable service. We are proud of our excellent reputation and high rate of retention. We are excited to add such a talented young engineer to help maintain our high level of service and meet our client's expectations.

KSI Professional Engineers LLC, and KSI Consulting Engineers, LLC offers expertise in structural, mechanical, electrical, plumbing and fire protection engineering services. KSI is dedicated to providing professional service, timeliness, efficiency and maintains a pride of workmanship. KSI is comprised of experienced principals and staff, capable of understanding the complexities of a project and providing workable solutions. The design team boasts over 60 years of combined individual experience. They offer a fully coordinated hands-on approach to their clients. Many architectural firms throughout the Tri-state region appreciate the "one stop shopping" for their consulting engineering needs.

KSI Professional Engineers is located at 149 Yellow Brook Road, Farmingdale, New Jersey.
